

Signs of the Heavens toward 2025

Cosmic, Solar and Planetary

Directions and Cycles

2016 June, 20th

*“...at the time of the June Full Moon, the Christ — in
the closest cooperation with the Buddha — links the
Hierarchy with Humanity”*

(EOH, 225)

Similarly, this alignment of the Full Moon of **Gemini** links in a deeper way **SIRIUS** (the higher Hierarchy –

Sirius is the 'feminine' Consort of **ORION**,
our cosmic Magnet or Sun's primary , "the Head of the Cosmic Christ";
Its energy is strictly related to the solstitial axis **Cancer-Capricorn**)

- through the **SUN**

(Christ, the higher self, the centre of Hierarchy)

- with the **EARTH** (Humanity, the lower self)

- and Its **MOON** (3 lower bodies and kingdoms)

*Correspondences between cosmic, solar
and planetary Entities in our “local universe”*

- *Sirius* – MONAD – Shamballa
- *Sun* – SOUL – Hierarchy
- *Earth* – PERSONALITY – Humanity
- *Moon* – 3 lower bodies or kingdoms – the “prisoners of the Planet”

- 2015: Jupiter in **Virgo** square Saturn in **Sag**
- 2020: Jupiter conjunct Saturn in **AQUARIUS**
- 2025: Jupiter in **Gemini** square Saturn in **Pisces**

“... All the Masters Who are initiates of the sixth degree meet in conclave and together, and before making Their final decision (which will probably remove Them from the Path of Earth Service), decide what measures They propose the Hierarchy should take which will drastically and permanently affect the planet on which They have lived and for which They have worked. (...) They in Their totality—at any given time—are the group which makes final decision anent human affairs. It was a decision made by this group of initiates during the ancient Atlantean civilisation which brought it to an end; the decision which They will make now will produce great changes in our modern civilisation. (...). The opportunity comes to the Hierarchy every forty-nine years, and the year **1952** [Written in 1949] will see a group of these higher initiates choose the Path of Their future livingness and Being, but They will do so only after setting in motion certain energy forces which will creatively change matters on Earth. They thereby prove two things: Their grasp of world need and Their recognition of man's freewill to make decision. The last initiation of this kind was therefore held in **1903**. (...) What They decided to do led to the world war; to a demonstrated cleavage between right and wrong, between imprisonment and freedom, and which, in 1952 will lead to a decision (...)

At this sixth initiation the Masters Who participate in it no longer come under the jurisdiction of the Hierarchy. They have moved out from under it. Their long connection with the Hierarchy is translated to a higher centre and is transferred to Shamballa, *unless* (as in the case of the Christ) They choose the Path of Earth Service and return to work with the evolutions upon our planet; there are many such evolutions and several kingdoms in nature besides the human, including the deva or angel evolution.” (RI 721-2)

As we know, the Council of Shamballa meets at every turn of the century to impart a spark of Life for the new coming century, and Hierarchy meet at each quarter of a century, which coincides with the center of a **cycle of 49 years** (25 years).

A *century* (a cycle consecrated to the 1st Ray Rhythm of Shamballa which follows the No. 1 and its "potencies": **10 100 1000** ...) contains two 49-year cycles ($2 \times 7 \times 7$) plus 2 years of synthesis and bridge.

We can put the subsequent septennia of a century into a 7×7 matrix - a *Lambdoma* according to the *Science of Harmonics* founded by Pythagoras -, in order to grasp the *Ray* quality of each seven year cycle as well as of each year.

A *Higher Decision* is made each 49 years (in 1903, 1952, 2001, 2050...) and we can infer that the planetary Plan must follow It as a progressive updating of the Purpose.

In particular, in **2000** we had a Shamballa Impact, in the exact bridge between millennia, which closed the last 49 years cycle (1952-2000) to inaugurate the current one (2001-2050).

The Planetary System

TPS is an idea and project of coordinated cooperation between all who care about the planetary development.

The model of thought and action is that of the solar and cosmic System, reflected in Nature, as a source of inspiration and order for all fields of human activity.

1. Aim/Purpose

TPS aims to nourish the coordinated cooperation between all those, individuals or groups, who care about the planetary development, beyond any membership, nationality, religion or tradition.

2. Field of Service

The field of service of TPS is the Planet with all its kingdoms, whose right relationships must be secured by Humanity, through intelligent understanding of universal Laws.

3. Plan/Project

TPS plans to build the future by identifying a Plan of common advancement, and the necessary Goals and Functions to fulfill it, arranged according to integrated Systems, based on harmonic and creative Laws of Sound.

4. Model/References

The Planet is a cell or organ of Heaven. The Model, or main reference, is thus the Universe with its system of relationships. The Solar System is its closest example, and the planetary and human systems are reflections of it, in a proportional scale.

As above so below, commensurate and in conformity.

5. Manifestation/Activity

The Work of TPS is devoted to the study, research and experimentation of the principles and modalities of a new Culture/Civilization, founded on golden relations between kingdoms, mankind and works.

6. Community/Values

The primary value is the ultimate Unity of the Whole, taught and demonstrated by Nature and the Greats of mankind: Unity that has to be achieved according to the hierarchical scale determined by level of consciousness and responsibility.

7. Order/Structures

TPS reproduces in itself and follows the order of rhythms and cycles of the Solar System and Cosmos, establishing the structures and progressive steps to achieve the Purpose.

Who are disciples?

Disciples are those who consciously walk the way back to the One in order to serve the world, that is those who are no longer focused on their evolutionary development or personal growth or success of the group within which they operate. Disciples are those who feel the need to consecrate their lives for the good of Humanity, without fear of losing their particular good.

Disciples are those who are able to stand firm in the midst of the din of battle and, like beacons, trace light paths that encourage the disoriented consciousness. They are those who know how to read events with the keen eyes of the heart: a heart which recognizes and relentlessly weaves the bright thread of progress amidst the clutter and the sirens of doom. They are those who know that the forces of evil in us and around us can only be fought with the power of Love, while the weak consciences deceive themselves dealing with them with their own weapons, at the same level: the great Master, unheeded, was teaching to love our enemies.

The disciples are those who assume the responsibility of being the golden ratio between the planetary Hierarchy and Humanity.

“The universe is a system
of hearts”

The Great Invocation

From the point of Light within the Mind of God
Let light stream forth into human minds.
Let Light descend on Earth.

From the point of Love within the Heart of God
Let love stream forth into human hearts.
May the Coming One return to Earth.

From the centre where the Will of God is known
Let purpose guide all little human wills --
The purpose which the Masters know and serve.

From the centre which we call the human race
Let the Plan of Love and Light work out
And may it seal the door where evil dwells.

Let Light and Love and Power restore the Plan on Earth.
